

REGISTER OF LIFTING APPLIANCES AND CARGO
HANDLING GEAR

Register Number: **MCB25N010**
Name of Ship: **ADHARA**
Call Sign: **C5J758**
IMO Number: **9353125**
Port of Registry: **BANJUL**
Name of Owner: **KRISHI MARITIME INC**

Issued at **BANJUL** on **08/09/2025** (dd/mm/yyyy)

Digitally signed by: A JALLOW
Surveyor/Auditor to MCBG CLASS

Name and Signature of authorized official issuing the Certificate

Note:

This Register is the standard international form as recommended by the International Labour Office in accordance with ILO Convention No.152.

(THIS PAGE MAY BE USED FOR LIABILITY CLAUSE etc.)

GENERAL

The tests, examinations and inspections indicated in this Register are based on the requirements of ILO Convention No.152 and Recommendation No.160. They are intended to ensure that ships' lifting appliances are initially certified by a competent person and to establish periodically that they continue to be in safe working order to the satisfaction of a competent person acceptable to the competent authority.

A Register of Lifting appliances and items of loose gear shall be kept in a form prescribed by the competent authority, account being taken of this model recommended by the International Labour Office. This Register and related Certificates shall be kept and be available to any person authorised by the competent authority. The Register and Certificates for gear currently aboard the ship shall be preserved for at least five years after the date of the last entry.

INSTRUCTIONS

1. Initial examination and certification

- 1.1 Every lifting appliance shall be certified by a competent person before being taken into use for the first time to ensure that it is of good design and construction and of adequate strength for the purpose for which it is intended.
- 1.2 Before being taken into use for the first time a competent person shall supervise and witness testing, and shall thoroughly examine every lifting appliance.
- 1.3 Every item of loose gear shall, before being taken into use for the first time be tested, thoroughly examined and certified by a competent person in accordance with national law or regulations.
- 1.4 Upon satisfactory completion of the procedures indicated above the competent person shall complete and issue the Register of Lifting Appliances and attach the appropriate Certificates. An entry shall be made in Part I of the Register.
- 1.5 A rigging plan showing the arrangement of lifting appliances shall be provided. In the case of derrick cranes the rigging plan should show at least the following information:
 - (a) the position of guys;
 - (b) the resultant force on blocks, guys, wire ropes and booms;
 - (c) the position of blocks;
 - (d) the identification mark of individual items;
 - (e) arrangements and working range of union purchase.

2. Periodic examination and re-testing

- 2.1 All lifting appliances and every item of loose gear shall be thoroughly examined by a competent person at least once in every 12 months. The particulars of these thorough examinations shall be entered in Part I of the Register.
- 2.2 Re-testing and thorough examination of all lifting appliances and every item of loose gear is to be carried out.
- 2.3 The re-testing referred to in paragraph 2.2 (a) may be omitted provided the part which has been renewed or repaired is subjected by separate test, to the same stress as would have been imposed on it if it have been tested in situ during testing of the lifting appliance.
- 2.4 The thorough examination and tests referred to in paragraph 2.2 are to be entered in Part I of the Register.
- 2.5 No new item of loose gear shall be manufactured or wrought iron. Heat treatment of any testing wrought iron components should be carried out to the satisfaction of the competent person. No heat treatment should be applied to any item of loose gear unless it is in accordance with the manufacturer's instruction, to the satisfaction of the competent person. Any heat treatment and the associated examination are to be recorded by the competent person in Part I of the Register.

3. Inspections

3.1 Regular visual inspections of every item of loose gear shall be carried out by a responsible person before use. A record of these regular inspections is to be entered in Part II of the Register, but entries need only be made when the inspection has indicated a defect in the item.

4. Certificates

4.1 The certification forms to be used in conjunction with the Register (Form No. CG.1) are as follows:

Form No. CG.2 - Certificate of test and thorough examination of lifting appliances.

Form No. CG.2 (U) - Certification of test and thorough examination of derricks used in union purchase.

Form No. CG.3 - Certification of test and thorough examination of loose gear.

Form No. CG.4 - Certification of test and thorough examination of wire rope.

5. Definitions

- a) The term 'competent authority' means a minister, government department or other authority empowered to issue regulations, orders or other instructions having the force of legislation.
- b) The term 'competent person' means a person possessing the knowledge and experience required to carry out performance of thorough examinations and tests of lifting appliances and loose gear and who is acceptable to the competent authority.
- c) The term 'responsible person' means a person appointed by the master of the ship or the owner of the gear to be responsible for the performance of inspections and has sufficient knowledge and experience to undertake such inspections.
- d) The term 'thorough examination' means a detailed visual examination by a competent person, supplemented, if necessary, by other suitable means or measures in order to arrive at a reliable conclusion as to the safety of the lifting appliance or item of loose gear examined.
- e) The term 'inspection' means a visual inspection carried out by a responsible person to decide whether, so far as can be ascertained in such a manner, the loose gear of sling is safe for continued use.
- f) The term 'lifting appliance' covers all stationery or mobile cargo-handling appliances used on board ship for suspending, raising or lowering loads or moving them from one position to another while suspended or supported.
- g) The term 'loose gear' covers any gear by means of which a load can be attached to a lifting appliance but which does not form an integral part of the appliance or load.

<p>Note 1: If all the lifting appliances are thoroughly examined on the same date it will be sufficient to enter in column (1) 'All lifting appliances and loose gear'. If not, the parts which have been thoroughly examined on the dates stated must be clearly indicated.</p>	<p>Note 2: The thorough examinations to be indicated in column (3) include: (a) Initial (b) 12 monthly (c) Five yearly (d) Repair/damage (e) Other thorough examinations including those associated with heat treatment</p>	<p>Part 1. Thorough examination of lifting appliances and loose gear</p>
---	--	--

(1) Situation and description of lifting appliances and loose gear (with distinguishing numbers or marks, if any) which have been thoroughly examined (see Note 1).	(2) Certificate Nos.	(3) I certify that on the date to which I have appended by signature, the gear shown in column (1) was thoroughly examined and no defects affecting its safe working condition were found other than those shown in column (4) date and signature (see Note 2)	(4) Remarks

INSTRUCTIONS FOR ENTERIES IN THE REGISTER

- a. Initial and five yearly Thorough Examination
 Lifting Appliances with Perm
 The competent person shall fill in the Test Certificate Form No. CG 2 and certify in Part I of this Register. For derricks used in union purchase Form No. CG 2 (U) is to be used.

 Loose Gear:
 The competent person shall fill in Test Certificate Form No. CG 3 and certify in Part II of this Register.
- b. Annual Inspection/thorough examination
 Lifting Appliances with Permanent Attachments:
 The competent person or the ship's management shall certify in Part I of this Register.
 Loose Gear:
 The competent person or the ship's management shall certify in Part II of this Register.
- c. Overhauling, changing or replacement of lifting appliances with permanent attachments and loose gears:
 The ship's management shall fill in particulars of overhauling and replaced parts in Part I of this Register for lifting appliances and Part II for loose gear.
